## OFFICERS IMPRESSED BY STORY OF HARRIS

Detail Facts Supporting Confession Are Given Authorities

Skepticism is Giving way To Belief of Guilt

Was Hired For \$5000 to Kill Elwell Millionaire Turfman

(By Associated Press)

New York, April 8.—Impressed by the detailed accounts of the murder of Joseph B. Elwell, millionaire turfman, given at Buffalo, yesterday by Roy Harris, former Governor Whitman, who is in charge of the murder investigation, said he was beginning to take more seriously Harris' alleged confession of complicity in the crime.

Mr. Whitman at first had been skeptical of Harris' story, told Wednesday night after his arrest in Buffalo. This skepticism it was explained, was due to the fact that the authorities already had received seven different confessions, six by letters and one in person.

It was reported today that Mr. Whitman was making an effort to have Harris brought to this city. Harris, arrested on a forged charge, signed a statement that he and William Duncan, a friend, were hired with promise of \$5,000 each to kill the turfman.

He claimed that a woman known to him as "Mrs. Fairchild" employed them. Detention of a New York woman, whose photograph was identified tentatively by Harris as that of Mrs. Fairchild, was suggested to Mr. Whitman by the district attorney at Buffalo, but Mr. Whitman decided to wait for further developments before taking action.

Stole Shipment of Liberty Bonds

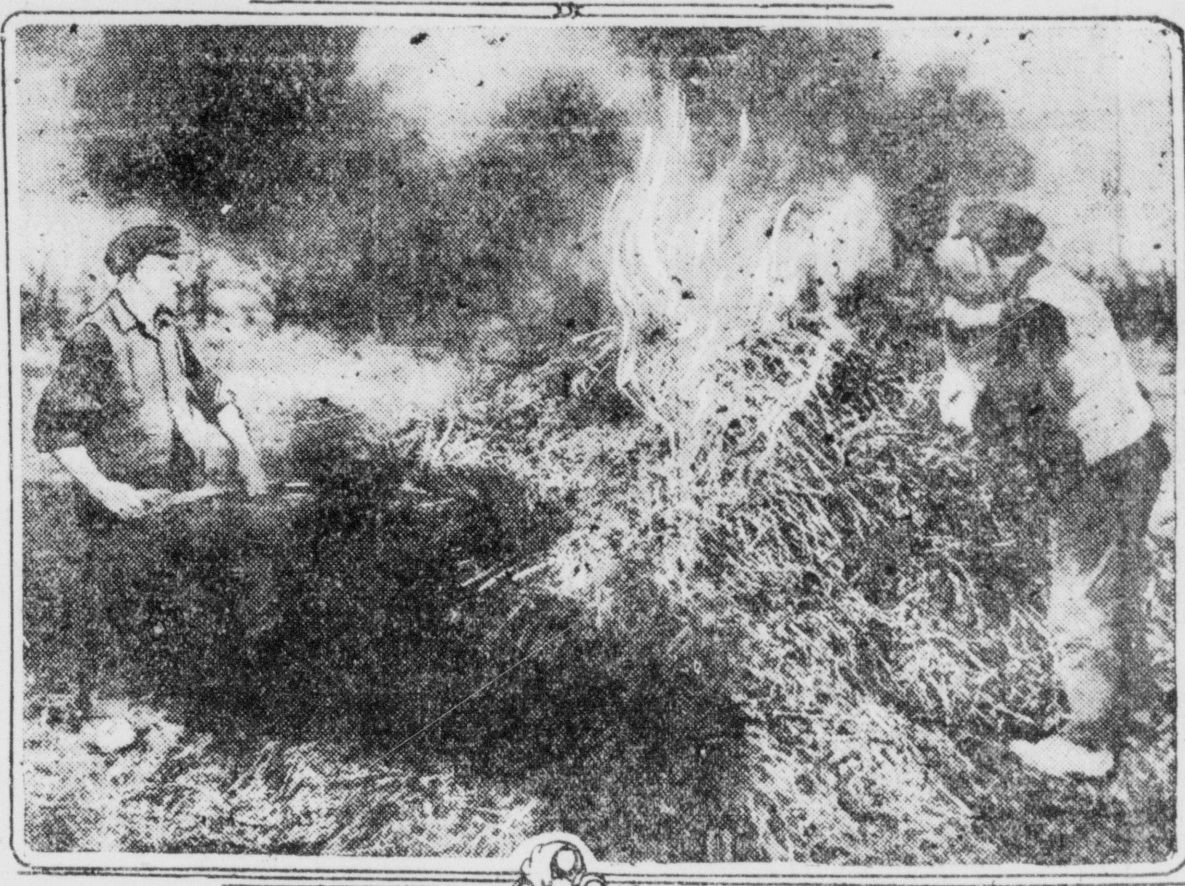

(By Associated Press)

Cincinnati, April 8.—The value of the three sacks of registered mail stolen last night by three masked bandits after they had handcuffed the driver of a United States mail truck and a railway mail clerk to the wheels of the truck had not been determined late today.

It is believed, however, that it will run far up into the thousands.

John Clark, superintendent of the railway mail service is making inquiries in the effort to find out from what points in Ohio the registered mail was sent. Clark believes that the sack may have contained money and possibly liberty bonds shipped from towns like Sidney, Wapakoneta, Dayton and other points between this city and Toledo.

(By Associated Press)

Chicago, April 8.—Policeman John Tracey and Robert Nikisch are dying, Matthew Lalich died early today and two others are suffering from wounds received in a street fight in the South Chicago steel mill district late last night.

As Tracey and Policeman John M. White, who was wounded in the hand, met a party of three steel workers, a quarrel began, it was said, when the policeman, in plain clothes was crowded off the sidewalk.

The steel workers opened fire, and by the time both sides had emptied their guns all had been wounded.

Captain Joseph Smith of the South Chicago police station said the three steel workers, not familiar with the English language, may have thought the two policemen in plain clothes were robbers.

Paris Hears Fresh Proposition To be Submitted on Reparation

Allies May Soon Issue Ultimatum to Germany.

Conference in Washington Not Favored

(By Associated Press)

Paris, April 8.—It was stated semi-officially here today that a fresh proposition on reparations was expected from Germany.

Unconfirmed reports are in circulation that the Germans are making another effort to interest the United States in the question by negotiations between Karl Bergmann, German Under Secretary of the Treasury and Roland W. Boyden, formerly American unofficial representative with the allied reparations commission.

Nothing is known in official circles of a reported invitation to the allies and Germans to meet in Washington to discuss reparations and it is declared here there is little likelihood of such procedure being favored by the allies.

The present expectation is that the allies will issue an ultimatum to Germany on the expiration of the time limit set for the payment by Germany of 20,000,000 marks gold, May 1st.

Government Plans Drastic Step To Man Essential Industries.

Army and Navy Reserves Will Be Called Up by Royal Proclamation

"Triple Alliance" Plans Strike Of 550,000 Additional Workmen

Government Takes Steps For War to Finish.

(By Associated Press)

London, April 8.—Tuesday midnight, unless there is some new development, will see the commencement of the greatest labor struggle in the country's history.

Approximately 2,000,000 workers then will have ceased their duties in protest against what they consider to be an organized attempt to enforce a general reduction in wage. This is the central fact of the labor situation as it developed today.

(By Associated Press)

London, April 8.—All efforts by Mr. Lloyd George, the prime minister, to bring the miners and the mine owners together to discuss the differences which led to the strike in the coal fields having failed, the miners' executives went into conference this afternoon with their partners in the triple alliance—the transport workers and the railway men—to decide when the members of the allied organizations should be called out in a sympathetic strike.

The miners were adamant in their stand that there should be no restrictions regarding the questions to be discussed at the conference proposed by Mr. Lloyd George, and an exchange of letters between them and the prime minister failed to change their minds.

The government was just as firm in its views that the threatened destruction of the mines by flooding should be first considered.

Thus early this afternoon it came to be known that a deadlock had been reached and that apparently nothing short of a knock-down by the government could avert the industrial upheaval.

The triple alliance which has now taken over command of labor's side of the controversy has a membership of 800,000 miners, 300,000 railway men and 250,000 transport workers.

The intention of the British government to issue an appeal for volunteers for the transport and other essential services in view of the prospective triple alliance strike was announced in the house of commons late today by Mr. Lloyd George.

A Royal proclamation would call up the army and navy reserves, he said.

The government also intends to enroll special constables at and form a special emergency force for a period of 90 days to protect the police in the execution of their duties, he added.

# FAILURE MARKS THE ENDEAVOR TO REPEAL LAST RATE ORDINANCE

Council Denies Request of Solicitor to "Back Up" on March 14th Action.

Fear of Attitude of U. S. Court Is Plainly Back of Request.

Because of the attitude of the United States District Court regarding the action of council on March 14th, when that body passed an ordinance to change the rates being charged for electricity in this city, Solicitor Junk at the adjourned session of city council Thursday night presented an ordinance to repeal the ordinance recently passed and in effect apologizing for passage of the previous rate ordinance.

It had been broadly rumored that the United States Court might probe the recent action of council in passing the rate ordinance with a view to ascertaining if any official had been guilty of action in contempt of the restraining order issued by the court sometime ago, effective pending decision of the action in that court.

The ordinance presented by Solicitor Junk Thursday night to repeal the previous ordinance, referring to that ordinance, explains:

"and it is suggested that such action tends to impede the order of the injunction allowed in the suit now pending in the District Court of the U. S., Southern District of Ohio, Eastern Division, of The Washington Gas & Electric Company of Washington, and to import disrespect of said court and

"whereas said ordinance was passed without intent, wish or expectation in any wise to disregard the court's said order, or of disrespect of said court:

"Now, for the purpose of removing any ground or cause for criticism of said action of the council of said city, be it ordained by the council that said ordinance be and it is hereby repealed."

When the ordinance was presented Member Brownell asked for information as to the situation in which it would leave the city, and expressed doubt as to whether the City's attorneys knew just where passage of the repealing ordinance would leave the rate question. He said that he was ready to vote for the measure if it was what should be done, but stated that if he cast a vote without further information it would be done blindly.

It was moved by Rowe that the ordinance be placed upon its first reading, and after the first reading further action was held up when the question was raised as to whether passage of such an ordinance might not abrogate all existing electric rate ordinances.

This resulted in the ordinance being carried over until the next meeting.

### The Yap Notes

The notes of Secretary of State Hughes addressed to Great Britain, France, Japan and Italy denying the right of the Council of the League of Nations to dispose of the former German territorial possessions, in general, and the Island of Yap in particular, without consulting the United States and complying with the wishes of this nation, emphasizes forcefully the change that has occurred in our foreign policy.

The note is a square declaration of American rights. It is in no sense jingoism but it is pointedly direct and so plain that it admits of no misunderstanding regarding our attitude. It is the vigorous Americanism which has been promised.

Our attitude regarding the disposition of Yap, our protests to the Allied nations as phrased by the former administration, judging by the fact that our protests were ignored, were never taken seriously by the nations in parceling out territory taken from Germany. It remains to be seen now what effect the new method will have.

The position of Secretary Hughes is logical. At the conclusion of the war, by the treaty of Versailles, Germany surrendered to the Allied and Associated nations, all her possessions in the Pacific including Yap. Thus the title to Yap passed to the allied and associated nations as tenants in common and as the United States did not join in the action of the nations granting exclusive title to Japan, the rights of this nation remain as part owner and therefore co-tenant with Japan.

The Mikado's government has heretofore asserted exclusive ownership and control of Yap, under warrant of the action of the League Council.

The notes of Secretary Hughes state the issue plainly and thus the far-off little island of Yap of which we have heard so little and know so little about, becomes the center of world interest.

Are the League of Nations' decrees the super-law among the nations or is the United States, a non member, unaffected by any action of the league? The question has been squarely raised.

#### WHEN YOU'RE AWAY:

When you're away, I'm like a ship at sea,  
 Bereft of anchor, captain or crew,  
 Left here to flounder—tossing aimlessly—  
 Wearying for you.

I go about my household tasks and cares,  
 My heart and mind a thousand miles away  
 I seem to hear your footfall on the stairs  
 At close of every day.

And when in length of days our time draws near—  
 Should I be first to reach that other shore—  
 'Twill be no heaven for me until I hear  
 Your footsteps at the door."

## EVENTS SWING IN FAVOR OF KNOX LODGE AND CO.

Irreconcilables Joyful Over The Results of Their Anti-League Fight

Great Increase in Their Power And Numbers — Lansing's Book Big Help

BY MARK SULLIVAN  
 (Copyright 1921)

Washington, April 7.—The irreconcilable senators are feeling very good. Things are going their way, Lodge is in his heaven and Knox is by his right side. They and their acolytes are neophytes, their seraphim and cherubim are singing "Caudeamus Igitur" every time they meet. And they meet very often, formally or informally. They are feeling so good and are so well pleased with themselves and with one another that they like to get together and celebrate, and tell one another how valiant they were and how joyful they are.

They are a happy band of brothers. They rehearse old battles like veterans fight Chickamauga over, or Chateau Thierry. Even once in so often in the spirit of their rites, they dash outside the circle of their talk to kick the fresh immortelles from Mr. Wilson's tombstone and do a little war dance around his grave. That always refreshes them particularly. After that ceremony the oration occasionally gets just a little closer—as close as good orthodox Republicans can go—to faint, off, ever so faint, intimations of what they could do, if they chose to do to any other President, who might try to treat them as badly as Mr. Wilson did.

They'll show the world, they will. They'll put the fear of God in any nation or any person who ever again acts as if the President of the United States were the whole thing in foreign relations. They'll show'em who controls the foreign affairs of the United States. Actually and literally, the other day, one of the Frenchmen in M. Viviani's mission, after coming from a conference with several members of the Foreign Relations Committee of the Senate, remarked: "All that France fears is God and the American senate, and at the moment the American senate seems a little closer."

No clear-sighted person will deny that much of this is justified in the irreconcilables. Events have gone their way. You may like their issue or you may not like it; you may approve their tactics or not approve them. But if you have any sense of reality you will admit that the course of events favors and justifies them.

#### Prejudice Solidified

Not only did the nation, in that solemn referendum that Mr. Wilson called for, reject the Treaty by an unprecedented majority. Events subsequent to the election have tended to confirm the American public in their suspicion of everything that was done at Paris. Can any one doubt that Mr. Lansing's book and the enormous circulation of his magazine articles, giving first-hand and contemporary evidence, must necessarily have further crystallized the public mind against Mr. Wilson, the League, Versailles, Paris and Europe altogether?

Here is Mr. Wilson's own Secretary of State saying things about Mr. Wilson and secrecy and bamboozlement worse than anything the most violent irreconcilables said in the Senate. It is futile to deny it. You may feel that Mr. Wilson's mistakes and Mr. Wilson's personality are beside the point, and that the world must have a mechanism for peace or civilization will perish. You may feel all that as a permanent conviction, but not even the most ardent, unless he is blinded to fatuousness by his faith, can deny that the senate irreconcilables are entitled to the increase they have made in numbers, in power and in confidence.

Their increase in power and numbers is very marked. Only those close to the senate realize it. Not only have converts come to them through the force of events. Not only are many irreconcilables now who were reservationists before. In the reorganization of the senate committee on Foreign Affairs, and in the new steering committee that is going to have much power, individual irreconcilable senators have strengthened their grip. Lodge, chairman of the senate Foreign Affairs committee, chairman of the steering committee, and chairman of the Republican caucus, who during the last session was a kind of parliamentary moderator between the irreconcilable and the

reservation factions, is now and out and out irreconcilable.

All this explains not fully but to a degree why Senator Knox's resolution is in the center of the news and President Harding's associations of nations is not. The irreconcilables are able to have a program and President Harding is not. President Harding has a burden of responsibility that the senate can carry more lightly.

Foreign complications make it inexpedient for President Harding to announce a program for an association of nations. The day he took office was the same day when the Germans and the Allies were snarling at each other in the London conference. President Harding could not throw the monkey-wrench of a new proposal into that delicate machinery. That reparations snarl still continues and until it is over President Harding's program must wait. For the time the best he and Secretary Hughes can do is to handle individual aspects of our foreign affairs as they come up.

Meantime the senate has a program. It is a program that meets the increasingly pressing practical demand for ending our anomalous state of war with Germany. It is a program that satisfies the immediate impatience of the country, while President Harding's program is a wider and more permanent and more distant thing. Of course, the senate won't pass the Knox resolution until President Harding says it is time; but meanwhile it will be the Knox resolution that will have the center of the stage.

## DR. HENRY DESCRIBES THE BACKSLIDER

"How a Great Man Lost His Grip" was Dr. Henry's subject Thursday night at Grace M. E. Church. "Because Samson become self-indulgent, chose Godless friendships, neglected his divinely chosen task, and forsook God himself, he has been the object of pity through the centuries. He turns again to his God in the end, but instead of being known as one of God's great heroes, he is seared as by fire. The backslider is one of God's great problems today. So much is left undone for Christ, because those whom God has chosen to honor him are self-indulgent rather than sacrificial service of the Master."

Thursday afternoon Dr. Henry spoke at the Presbyterian church on "The Holy Spirit and the Great Need His Influence in the Life of Today." He especially emphasized the Church's need of a spiritual baptism.

Friday night he will preach on "Short Beds and Narrow Covers." The young people are especially urged to attend this service. There will be no meetings Saturday.

Sunday morning Dr. Henry will preach on "The Cross, the Supreme Tragedy of the Universe." At 2:30 p. m. he will speak at the Presbyterian church on "Christ or Chaos, the World's Only Alternative." At 7:00 p. m. he will preach at Grace church on "The Unforgivable Sin." The meetings will continue next week.

## RECORD NUMBER OF SPRING PIGS

Persons who have been over much of Fayette county recently declare that the number of spring pigs is as great or perhaps greater than at any previous time, numbering in the tens of thousands.

The spring has been unusually favorable for the little porkers up to the present time, and the litters are said to be exceptionally large, so that there is every indication that virtually all the coming corn crop will be fed on the farms again.

This is the twelfth contest and each year proves of much interest not only to the students but to hundreds of visitors who may be in Columbus the day of the contest. SET EGGS WHEN LESS

THAN FOUR DAYS OLD

After eggs have been laid four days, their likelihood of hatching depreciates at the rate of 4 per cent a day, according to the observation of Ohio chick hatchery managers. And if eggs are set after the 20th day, they are found to be practically worthless for hatching.

Estimating the number of eggs set annually in Ohio at a hundred million and the average age when set at six days, eight million eggs are therefore lost in the state due to this cause. These eggs valued even at 25 cents a dozen amount to more than \$160,000.

## STAR WITNESS CHANGES STORY ON THE STAND

(By Associated Press)

Warren, O., April 8.—Henry Collier, friend of Mrs. Alta M. Koehler, on trial here for first degree murder in connection with the death of her two small sons, testified today that as he approached the Koehler home on the day of the killing, Mrs. Koehler rushed out and told him she had shot the two boys and had wounded herself in the arm.

Collier, who is 17, told the coroner

at the time of the inquest that Mrs. Koehler had told him the same story she repeated to neighbors—that a negro had shot her and children. To day he said he had given this version to shield Mrs. Koehler at her request. Cross-examination failed to shake his statement.

## COUNCIL HOLDS BUSY SESSION THURSDAY NIGHT

Deficiency Bonds in Sum of \$43,500 To Be Issued to Meet Operating Expenses.

Street Improvement Again Taken Up and Definite Action Started.

The adjourned session of the council Thursday night developed into one of the most interesting in recent months, although the main object of the session was to pass a resolution to issue deficiency bonds to meet operating expenses of the city.

The resolution to issue deficiency bonds was presented and passed, providing for the issuance of deficiency bonds in the sum of \$43,500.

Passage of the ordinance followed submission to council of a statement requested of Auditor Hitchcock a short time ago, as to the financial condition of the city. The ordinance was passed as an emergency measure.

### Fixing Wages Paid

To conform with legal provisions an ordinance was passed fixing wages and compensation for workmen and teams employed by the Service Director for public work as follows:

Wagon with team and driver, \$4.00 to \$7.00 per day; unskilled and skilled labor, \$2.50 to \$3.50 per day.

### Oak Street Up

A resolution to proceed with the improvement of Oak street was placed upon its first reading. This provides for bituminous macadam paving.

Member Brownell moved that the ordinance be referred to the law and ordinance committee, explaining that it was his desire, because of the announced attitude of a property owner on that street, to be absolutely sure that all proceedings were regular so that the assessment could be collected. This resulted in a tilt with M. Tracey in which he was informed that only his signing of a waiver to insure no further protest, would the ordinance be voted for at the Thursday night meeting, before it had been reported upon by the law and ordinance committee.

### Escape the "Stout" Class

An attractive figure is not a matter of size but of correct proportions. The stout women who are never spoken of as "stout" are those who give a little time and thought to proper corseting.

### For Paving Streets

City Engineer Jacobs was instructed to prepare plans and specifications for paving with asphalt and with Tar via the following streets:

Market street, north to Columbus avenue; Columbus avenue from culvert to corporation line; Broadway; Clinton avenue; also Forest street, from Columbus avenue to Rawlings street.

The repair of Delaware street, Paint street to the B. & O. was recommended.

On Dayton avenue it was decided to proceed with the original paving program on that avenue, which provides for brick, sheet asphalt or other paving material. It was stated by residents of the street that the information recently given to President Veal that the majority of the property owners did not wish the paving to proceed at the present time had been erroneous.

### Wants Street Opened

C. E. Tarbell, residing on Yeoman street, asked council to open the alley between Washington avenue and Yeoman street. This was referred to the solicitor, engineer and service committee.

This makes Dreco so economical that every member of the family should take the treatment. After taking three bottles of Dreco I am free from all pain, never bothered with gas in my stomach and am well and happy. I think it is simply wonderful the way Dreco took hold of me and straightened me out after having been sick for such a long time."

# NORRIS STATES WIFE SUFFERED 25 YEARS

Akron Man Says Wife Spent Hundreds Of Dollars Trying to Get Well—Obtains Wonderful Results From Tania.

"My wife is now able to eat anything she wants for the first time in twenty years and I'm in here to get her another bottle of Tania, for that's what has done the work for her," was the statement made by D. W. Norris, of 716 Amherst St., Akron, Ohio, watchman for the Firestone Rubber Co., for the past four years.

"Tania is the only medicine that has helped her and I want her to keep a bottle on hand all the time. She suffered dreadfully from stomach trouble, and during the past twenty-five years we spent hundreds of dollars trying to find something to help her. Every thing she ate seemed to sour in her stomach and she would bloat until she had such terrible smothering spells that she would gasp for breath. Her nerves were in such an awful state she could scarcely sleep and she was in a miserable condition.

"Tania helped some of our neighbors so much that my wife started taking it, and it's astonishing what three bottles of the medicine have done for her. Why she can eat just anything she wants now without ever feeling a sign of indigestion and she has gained over bit of ten pounds in weight besides. Tania is the greatest medicine I've ever run across, and there's nothing too good I can say for it."—Adv.

## Notice to Tax Listers!

Under the law each person, owning or controlling personal property on the 10th day of April, shall list same for taxes on or before May 1st.

Tax blanks for the listing of such property for the year 1921, will be mailed to the rural listers on the 8th of April.

In the city of Washington blanks will be delivered at the homes during this week, so that they may be filled out and returned to the county auditor's office as early as possible after the 10th.

Each return must be signed and sworn to.

For failure to list as directed the law provides penalties to be applied.

Listers are asked to co-operate with the officials in getting their returns in promptly so as to expedite the great volume of work that has to be done.

You are invited to call on our assistants in the Auditor's office if you deem it necessary.

Guardians, administrators and executors of estates should make their returns early.

The farmers are asked to fill out the agricultural statistics and return with their blank.

All questions on blanks are to be answered in full before return can be accepted.

GLENN M. PINE,  
 County Auditor.

# ROAD REPORT OF AUTO CLUB

First Road Bulletin for Sunday is Issued Friday.

Beginning a series of road reports which will be given each week the Fayette County Auto Club announced its first road bulletin for Sunday motorists.

These bulletins will be announced each Friday during the touring months, as far as possible, and are authentic. They are prepared by the Club Secretary, Howard C. Allen.

Washington C. H. to Circleville—This road is now open.

Washington C. H. to Chillicothe—Detour on other side of Frankfort. The detour is good and is well marked.

Washington C. H. to Dayton—One of the best drives, and the road is in good shape byway of Xenia.

Washington C. H. to London—By way of Bloomington and Sedalia. A few miles this side of Sedalia is rough, but in dry weather the motorist will experience no trouble.

Washington C. H. to Hillsboro—By way of Staunton, Buena Vista and Leesburg.

Washington C. H. to Springfield—Reports received from the Springfield Automobile Club states that some spots between South Solon and Springfield are barely passable and motorists are advised not to try that route. As far as South Solon the pike is good.

The Fayette Auto Club suggests that a Sunday afternoon drive to Xenia by way of Wilmington and then home is one of the best for this week. The distance is about 80 miles and the road is in splendid condition.

## SCHOOL CONTINUED IN CLASSIFICATION FOR COLLEGE ENTRY

Washington High School received notice Thursday that it had been continued as a member of the North Central Association of Colleges and Secondary Schools. The notice is received annually following a meeting of college officials. The meeting was held this year in Chicago.

By being a member of the Association graduates of Washington High may enter any college in the eighteen states without taking an examination. Ohio has 85 high schools in this classification. Washington High is the only school listed in Fayette county.

The North Central Association extends from Ohio on the east to states ranging northward from New Mexico and Arizona on the west.

# Why Accurate Planting Cuts Crop Expense

If the Seed Isn't Properly Planted it Certainly Can't Grow

3556 hills to an acre is what a check-row corn planter with runners and wire set 3-ft. 6-in. will plant.

Three kernels to the hill, each producing a stalk bearing an ear weighing 10 to 11 ounces, means approximately 100 bushel crop per acre. Three stalks to a hill are not exceptional, neither are 10-ounce ears of corn! but to raise such ears requires fertile soil, good seed, a well prepared seed bed, good weather, proper planting and thorough cultivation.

You can't control the weather. But you can control every other thing that is necessary in the raising of a corn crop and reduce your chance to only a question of the weather.

Proper planting is of the greatest importance. If the seed isn't properly planted it certainly can't grow. Proper planting means that every hill of the 3-556 in each acre contains the right number of kernels planted at the right depth, at the right time, and properly covered.
